

The Flynn's stylish design is ideal for practical living, with its four bedrooms distributed around the main living and service areas.

Intelligent design provides a spacious, open plan filled with natural light, with dining and family areas flowing seamlessly to the outdoor patio and pool.

Inside there is separate linen storage, a computer nook and a stylish, free-standing bath. You'll love the separate home theatre and media room.

Outside the laundry, there is an undercover clothes-line, perfect for the tropical climate of North Queensland.

As with all Unique Constructions homes, the Flynn is for people who insist on the very best, coming standard with walk-in wardrobes, ceiling fans in all rooms and your choice of quality finishing and fittings.

Flynn is a home where everything adds up.
